Maci Brooks,

The success of this project is dependent on how quickly we can produce and distribute the first game on a global scale...North, South and Central America, Europe, Russia, Hong Kong, Singapore, India,

Australia, Mid-East, Africa. The SNOTS Beast is on our ass and getting ready to “chow down”. If you have any better plans for derailing this Beast please tell me and I will join your team! Otherwise, a little help in connecting with and empowering tens of thousands of ExL Games players will really be appreciated. **Dedicated coders/programmers, graphic artists, translators, marketing experts are some of the personnel that are needed NOW! I am 84, seeking younger, more qualified “CEO”.**

Love and blessings to all the active truth and freedom seekers, wherever you are!!
